

National Omnibus Survey

Top Lines: Round 5

April 24, 2024

Methodology

American Strategies and Statara designed and administered this multi-modal survey. Data were collected through a randomly selected online non-probability panel sample provided by Dynata Research. The survey reached 1,151 adults, age 18 or older. The survey was conducted April 11-23, 2024.

Quotas were assigned to reflect the demographic distribution registered voters in the United States. The overall margin of error is +/- 2.9%. The margin of error for subgroups is larger and varies. Percentage totals may not add up precisely due to rounding.

ENERGY

Variable Name: EDLL

Question: Most fossil fuel pipelines run across privately held land. Companies pay landowners for the use of the land through something called a land lease agreement, which is a private transaction between the company and the landowner where the owner is paid for the use of his or her land. This is how most pipelines are constructed.

Does this information make you (ROTATE) more or less likely to support the construction of a fossil fuel pipeline?

	Count	Percent
Total Answering	1,167	100.0%
Much more likely	206	17.7%
Somewhat more likely	606	51.9%
Somewhat less likely	284	24.3%
Much less likely	71	6.1%

ENERGY

Variable Name: FFPIPE

Question: Moving on, in general, do you (ROTATE) support or oppose constructing pipelines for fossil fuels, such as oil, natural gas, or carbon capture?

	Count	Percent
Total Answering	1,167	100.0%
Strongly support	338	29.0%
Somewhat support	458	39.2%
Somewhat oppose	270	23.1%
Strongly oppose	101	8.7%

ENERGY

Variable Name: GEBUILD

Question: In general, do you (ROTATE) support or oppose constructing green energy infrastructure such as wind farms or solar panel farm?

	Count	Percent
Total Answering	1,167	100.0%
Strongly support	482	41.3%
Somewhat support	450	38.6%
Somewhat oppose	157	13.5%
Strongly oppose	78	6.7%
